

Immediately report all spills

Hazardous Substance Spills

The Alaska Department of Environmental Conservation (ADEC) in accordance with AS 46.03.755 and 18 AAC 75 Article 3 requires reporting of any release of a hazardous substance as soon as the person has knowledge of the discharge.

Oil/Petroleum Spills

Report oil/petroleum discharges to ADEC and Merrill Field management as follows:

- 1 to 10 gallons: monthly.
- 10 to 55 gallons: within 48 hours.
- Over 55 gallons: immediately.
- Document all spills in the leaseholder Storm Water Pollution Prevention Plan (SWPPP).

Reporting and Contacts

For emergency spill response call 911 immediately!

Report all spills (emergency and non-emergency) online at www.MerrillFieldAK.com and call Merrill Field at 907-343-6303.

Merrill Field Best Practices

Storm water discharge practices protecting Anchorage's streams

Storm Water Pollution Prevention

Why is storm water a concern?

Storm water runoff is rain water and snow melt that runs off the land and makes it way to wetlands and streams. Storm water is not treated before it reaches these outfalls. If care is not taken, storm water runoff can also contain toxic chemicals, oil and grease, and other contaminants that are a major source of water pollution and can pose a serious threat to public health and the environment.

To protect our water resources, Merrill Field Airport is required to maintain a Storm Water Pollution Prevention Plan (SWPPP).

“Prevention is the best protection”

Alex Jumao-as, Assistant Airport Manager

What can Merrill Field Airport Users do to help prevent storm water pollution?

- Practice Good Housekeeping*
- Use Best Management Practices (BMPs) when washing and fueling your aircraft (see AMC 11.60.340 and AMC 11.60.190).*
- Perform aircraft washing only in the Wash Facility.
- Immediately report all spills and leaks and familiarize yourself with what to do in the event of a spill (see AMC 11.60.280). Failure to properly clean up a spill will result in a \$300 fine (AMC 14.60).*

- Get a spill response kit.*
- Train your employees on the importance of preventing storm water pollution and the associated practices and procedures.
- Attend seminars offered by Merrill Field Airport to raise your awareness and to learn your responsibilities.
- Contact Merrill Field Airport management if you have ideas or suggestions to reduce the potential for pollution.

Additional Information

*More information on these topics is available at the Merrill Field Airport Manager’s office.
